The purpose of this directory is to establish an accurate networking tool that can be used by all employees associated with Morale, Welfare and Recreation Aquatics Program. The directory list is in alphabetical order by geographical location and is divided into two sections; bases within the continental United States and those located overseas. The information provided for each site includes: Phone and fax numbers, e-mail addresses (where applicable) mailing addresses, the manager for each site and points of contact for Aquatics Program information in the Community Support Branch at Navy Personnel Command.

Every effort has been made to ensure that the information is accurate and up to date. Even with this cautious approach, errors inevitably occur. If you notice any errors, or as information changes, please complete the update sheet so that we can correct the information on the Web site and in future directories.

We hope you find this guide useful. Feel free to send ideas and suggestions for future directory revisions. Thank-you for providing the information necessary to create this directory.
